

**Pinedale Estates Domestic Water Improvement District
PO Box 1553
Lakeside, Arizona 85929
(928) 367-6621**

May 1, 2018

Welcome to Pinedale Estates Domestic Water Improvement District!

The District was formed to take control of our future water needs. To that end you now have a board of directors who are running the district. Board members include:

Mike Eckert 505-331-3709
Ray Hinesly 602-820-8590
Charles Mead
Gary Engman
George Jones

The first steps that have been taken include hiring a water administrator, Stephanie G Irwin CPA, and a certified water operator, Barry Harville to manage the day-to-day operations of the district. They bring many years of experience in the field of water districts.

Initial water rates have been established and regular meetings of the board will be scheduled. Initial rates will be \$35.00 per month including 2,000 gallons of water. Water will then be billed at \$2.50 per 1,000 gallons.

The first steps planned are an evaluation of the system and determination of how best to proceed with providing adequate water to all customers. This will not be a quick process as many maintenance needs have been deferred by previous management. First priority will be adequate water supply as we move towards summer. We encourage you to be respectful of all your neighbors and water wisely as we work towards these goals.

Future items to be addressed include establishing a website that will include an on-line bill pay component as well as system wide improvements to infrastructure and compliance with all testing requirements.

Please remit all payments to the above address and address billing questions to Stephanie G Irwin CPA at 928-367-6621 or sgicpa@frontiernet.net. If you have water delivery issues please contact Barry Harville at (928) 242-0320 or kleansweepops@yahoo.com.
